SUBJECT INDEX

A

Actinomycosis, 85
Action and application of bite plates, 721
Adamantinoma, 696
Adenocystic basal-cell carcinoma, 698
Adults, deep bites in, 120
Age to begin orthodontic treatment, 224
Agranulocytosis, 467
  etiology and treatment of pathologic manifestations, 755
  inducing serious malocclusion, with treatment employed, 755
Allergy, 24
Alloy, chrome, five years with, 445
  in orthodontics, metallurgy and uses of, 346
Alveolar bone, types of resorption of, found in parodontal disease, 62
  canal, mandibular, relationship of posterior mandibular teeth to, 383
American Association of Orthodontists, 99, 199, 299, 404, 505, 594, 601
    address of welcome, first annual meeting, 1166
    Hollywood meeting of, 594
    president's address, 1115
    report from board of directors, 1170
      from American Board of Orthodontia, 1173
      of board of censors, 1164
      of budget committee, 1179
      of committee on socio-economics and committee on legislation, 855
      of constitution and by-laws committee, 1170
      of election committee, 1166
      of necrology committee, 1172
      of nomenclature committee, 1172
      of public relations committee, 1169
      of publication committee, 1178
      of relief committee, 1173
      of research committee, 1174
      of secretary, 1164
      of treasurer, 1165
    thirty-sixth annual meeting of, program, 899
      business sessions, 1164
American Board of Orthodontia, 404, 506, 1173
American Dental Assistants' Association, 302, 406, 508, 609, 712, 809, 907, 1007
American Dental Association, 609, 712, 809, 907, 1007
American Dental Hygienists' Association, 302, 407, 508, 609, 712, 809, 907, 1007
American Journal of Orthodontics and Oral Surgery, 97
Amidopyrine as factor in agranulocytosis, 474
Analgesia, 494
  and anesthesia, dental, consideration of patient for, 991
Analysis, case, for classification, 960
Anatomic structure of teeth, significance of, and their position in arch, 1
Anesthesia and analgesia, dental, consideration of patient for, 991
Anesthesia—Cont'd
  and hospitalization, factors influencing choice of, 675
  block, for maxilla, 683
  general, in major dental surgery, 180
  intravenous, in oral surgery, 875
  local, 181
    procaine in, 980
  nitrous oxide, procedure for, 490
Anesthesia Society, Horace Wells, 301, 407
Angioneurotic edema, 1208
Ankylosis of temporomandibular joint, 1181
    early, 177
    results, 1192
    traumatic, 785
    treatment of, 1185
Anodontia, 173
Anomalies, congenital, and orthodontics, 1125
  dental and oral, nomenclature, 1051
Aplastic anemia, from dental point of view, 580
Appliance, original, for treatment of open-bite, 363
  twin-wire, 303
Appliances, orthodontic, plea for simplicity in, 1057
Application and action of bite plates, 721
Arch, edgewise mechanism, principles and technique of, 635
  labial, 554
  narrow, as result of thumb-sucking, 516
  position of teeth in, significance of, 1
  wire, hinged labial, 363
    ideal, evolution and formation of, 437
Argentina Orthodontic Society, 610, 908
Army dental bill, 594
  regular, examination for appointment in dental corps, 1217
Arthrotomy, temporomandibular, bayonet incision for, 287
Artificial tooth crowns, 91 (B. rev.)
Association of American Women Dentists, 809, 907, 1007
Atrophy from disuse, parodontal disease, 1071
  senile, of parodontal tissues, 1071
Auxiliary spring, reciprocal, continuous, 163
Avertin, 185

B

Bacteriology for dental students, 1098 (B. rev.)
Band, cast, orthodontic, 160
  forming pliers, 768, 854
Basal-cell adenocystic carcinoma, 698
Bayonet incision for temporomandibular arthrotomy, 287
Beryllium, 39
Bicuspids, supernumerary, 694
Bird face, correction of, 791
Bite plane and its development, 944
  plates, their application and action, 721
Bites, deep, in adults, 120
Bladder in nitrous oxide anesthesia, 492
Block anesthesia for maxilla, 683
Blood dyscrasias from dental point of view, 467, 580, 687

Body growth factors and their relation to orthodontic problem, 953
Bone, alveolar, types of resorption of, found in parodontal disease, 62
and muscle, physiological aspect of, as applied in muscle training in orthodontics, 1162
and surrounding tissues, changes in, during experimental movement of teeth, review of literature on, 243
and vitamin C, 503
formation, 62
resorption, relation of types of, 67
reversion, 66
Bowels, in nitrous oxide anesthesia, 492
Brackets for use with edgewise arch appliance, 638
Bread, hard, nutritional experiments with, results of, 501 (Abst.)
Buckley, Eugene Floyd, in memoriam, 297
Business sessions, first annual meeting of the American Association of Orthodontists, 1164

C

Calculus in submaxillary gland and Wharton's duct, 1091
California, Casto goes to, 196
Canal, mandibular alveolar, relationship of posterior mandibular teeth to, 383
Can decay of teeth be prevented, 294
Cancer, intraoral, protective shields in radiation therapy of, 95 (Abst.)
Canines and molars, deciduous, cast band for permanent restoration of, 804 (Abst.)
Carcinoma, adenocystic basal-cell, 698
of mandible, case report, 15, 995
Case analysis for classification, 960
reports, 155, 249, 393, 495, 587, 696, 801, 850, 887, 893, 995, 1093, 1208
Cast band, permanent restoration for deciduous molars and canines, 804 (Abst.)
orthodontic, 160
Casto goes to California, 196
Catarrh, 20
Cavernous sinus thrombosis, pericoronal infection leading to, 393
Central Section of Pacific Coast Society of Orthodontists, 1218
Central Society of Orthodontists, 405
Cephalometric roentgenographic records of orthodontic results, 1039
Changes in bone and surrounding tissues during experimental movement of teeth, review of literature on, 243
Chemistry, mechanics and metallurgy of precious metals used in orthodontics, 37
Chicago Dental Society, 1008, 1218
Chrome alloy, five years with, 445
in orthodontics, metallurgy and uses of, 346
Chronic myelogenous leukemia, from dental point of view, 586
Class I malocclusion, 249
treated with new edgewise mechanism, 55
treatment of, 51
with open-bite, 852
Class II, division 1 malocclusion, 155
compromise treatment in, 668
subdivision, cases caused by thumb-sucking, 517
Class III malocclusion, myofunctional therapy in treatment of, 435
Classification, case analysis for, 960
Cleft, facial, 801
palate, complications arising from, treatment of, 87
partial, elongation of, 878
Cleidocranial dysostosis, 843
Cleveland Dental Society, 201, 300, 406
Clinical observations, fallacies in, 989
orthodontic evidence of systemic disease, 27
Closing of space of lost maxillary central incisor, 665
Collum fracture of condyloid process of mandible, 779
Complications arising from cleft palate, treatment of, 87
of surgical diseases of mouth, treatment of, 483
postoperative, in exodontia, and some means of preventing them, 281
Compromise treatment in distoclusion case, 668
Condyloid process, collum fracture of, 779
dislocation of, without fracture, 775
of mandible, injury of, 774
Congenital anomalies and orthodontics, 1125
constitutional factors in defective dental development, 425
Congenitally absent teeth, neutroclusion case involving, 151
Consideration of bite plane and its development, 944
of patient for dental analgesia and anesthesia, 991
Constitution, heredity, and orthodontics, 136
Control of habits in treatment of malocclusion, 909
Cooperation or regimentation—which, 705
Coordination, final step in orthodontic procedure, 1
Correction of bird's face, 791
of deformity in ankylosis of temporomandibular joint, 1191
Crowns, artificial tooth, 91 (B. rev.)
Cysts and orthodontics, 1150
fissural, 801
follicular, of mandible, 892
in mandibular molar region, 189
incisive canal, 1093
large, of left mandible, 285
multiple fissural, 893
of jaws, 565
involving impacted teeth, 477

D

Dallas midwinter dental clinic, 100
Decay of teeth, can it be prevented, 294
Deciduous molars and canines, cast band, permanent restoration for, 804 (Abst.)
teeth, incidence and effect of premature loss of, 613
Deep bites in adults, 120

Deformities, acquired, and orthodontics, 1129
associated dental, malocclusion and, 337
congenital, 1124
Deformity, correction of, in ankylosis of temporomandibular joint, 1191
Delabarre, Frank A., 806
in memoriam, 708
Dental analgesia and anesthesia, consideration of patient for, 991
and oral anomalies, nomenclature, 1051
bill, new army, 594
conditions of 3,000 ancient and modern Greenlanders, 702 (Abst.)
corps, regular army, examination for appointment in, 1217
deformities, associated, and malocclusion, 337
malocclusion and associated, 337
development, defective, congenital constitutional factors in, 425
growth, relation of glandular dysfunction to, 1014
infection, eye involvement from, 497
infections and their relation to systemic disease, ten years' research of, 272
point of view, blood dyscrasias from, 467, 580, 687
prosthetics, studies in, 1212 (B. rev.)
Society of State of New York, 102, 200, 300, 406, 508
students, bacteriology for, 1098 (B. rev.)
surgery, major, general anesthesia in, 180
Dentigerous cyst of jaw, 575
Dentistry, epithelial inlay in, 1083
in eighteenth century, 896 (Abst.)
in Missouri, history of, 1099 (B. rev.)
materials used in, 90 (B. rev.)
Development and growth of lower half of face, relation of function to, 9
dental, defective, congenital constitutional factors in, 425
of bite plane and its development, 944
of lower half of face, rhinologic factors involved in, 18
of mandible and maxilla, principal factors controlling, 171
Diagnosis, 762
gnathostatic, in orthodontics, 463
of parodontal diseases, 1071
oral, and treatment planning, 291 (B. rev.)
roentgenologic, improved detail and mount for, 289
Differences, individual, considered as bases for orthodontic procedure, 737
Disease, Paget's, osteoporosis circumscripta of, 93 (Abst.)
parodontal, types of resorption of alveolar bone found in, 62
periodontal, 190 (B. rev.)
endocrine disturbances as related to, 867
systemic, clinical orthodontic evidence of, 27
relation of dental infections to, 272
Diseases of sublingual and submaxillary salivary glands in roentgen picture, 93 (Abst.)
parodontal, diagnosis of, 1071
surgical, of mouth, treatment of, complications of, 483
Dislocation of condyloid process without fracture, 775
Distoclusion, 249
compromise treatment in, 668
Disturbances caused by impacted third molars, 587
endocrine, as related to periodontal disease, 867
of growth and metabolism as related to orthodontics, 1134
Duct, Wharton's, calculus in, 1091
Duodenal ulcer and focal infection, 495
Dyscrasias, blood, from dental point of view, 467, 580, 687
Dysostosis, cleidocranial, 843

E

Eastern Association of Graduates of Angle School of Orthodontia, 101
Economic committee of Missouri State Dental Association, report and recommendation of, 561
Edema, angioneurotic, 1208
Edentulous cases, immobilization of fractured mandible in, 974
Edgewise arch mechanism, modified, technique and principles of, 635
treatment of cases, 647
mechanism, new, Class I treated with, 55
Education, orthodontic, 522
principles and obligations of, 1032
Effect of premature loss of deciduous teeth, 613
Eighteenth century dentistry, 896 (Abst.)
Elongation of partially cleft palate, 878
Endocrine disturbances and orthodontics, 1134
as related to periodontal disease, 867
Endocrinology in orthodontics, 1009
Epithelial inlay in dentistry, 1083
Ethylene-oxygen anesthesia, 184
Etiology of malocclusion, 225
European Orthodontological Society, 405, 508, 609
Evolution and formation of ideal arch wire, 437
Examination for appointment in dental corps, regular army, 1217
physical, before nitrous oxide anesthesia, 491
Exercise to restore normal lip function, 158
Exodontia, practice of, 281
surgical procedures in, 770
Experimental study in growth of mandible, 925
Experiments, nutritional, with hard bread, results of, 501 (Abst.)
Extraction of teeth, agranulocytosis following, 468
Eye involvement from dental infection, 497

F

Face, bird's, correction of, 791
bow and orthodontic model former, 543
lower half of, development of, rhinologic factors involved in, 18
growth and development of, relation of function to, 9

Face—Cont'd
soft and hard structures of, profile radiography, aid in correlating, 459
Facial cleft or fissural cysts, 801
Factors influencing choice of anesthesia and hospitalization, 675
Facts and fancies in orthodontics, 827
Fairbank, Leigh C., to be first brigadier-general of Dental Corps, U. S. Army, 403
Fallacies in clinical observations, 989
Ferris, Henry Clay, in memoriam, 197
First annual meeting of American Association of Orthodontists, 1164
Fissural cysts, 893
and facial cleft, 801
Five state postgraduate clinic, 101, 200, 299
Focal infection, duodenal ulcer and, 495
Follicular cyst of jaws, 567
of mandible, 892
Forces, orthodontic, injuries caused by, and ultimate results of these injuries, 103
Formation of mandibular arch wire, 443
of maxillary arch wire, 441
Forsyth Dental Infirmary for Children, 810, 908, 1007
Fracture during extraction of teeth, 488
of jaws, 165
of mandible, immobilization in, 973
of neck of condyloid process, 779
Frankfort horizontal plane, aid in transposing, to profile radiograph, 459
Function, relation of, to growth and development of lower half of face, 9
Functional role of third molar, 5
Fundamental factors in bodily growth and their relation to orthodontic problem, 953

G

Gas (nitrous oxide and oxygen), 680
German dental convention, 810, 907
Gilpatric, William Henry, in memoriam, 708
Gingivitis, 1073
Glands, salivary, sublingual and submaxillary, diseases of, in roentgen picture, 93 (Abst.)
submaxillary, calculus in, 1091
Glandular dysfunction, relation of, in dental growth, 1014
Gnathodynamometer, 256
Gnathostatic diagnosis in orthodontics, 463
Gough, Frank A., in memoriam, 1216
Great Lakes Association of Orthodontists, 301, 1008, 1217
Greenlanders, ancient and modern, dental conditions of about 3,000, 702 (Abst.)
Growth and development of lower half of face, relation of function to, 9
and metabolism, disturbances of, related to orthodontics, 1134
and occlusion, 1068
bodily, relation to orthodontic problem, 953
dental, glandular dysfunction in, 1014
of mandible, experimental study of, 925
race, and occlusion, 1065
Gum pads, relationship of maxillary and mandibular, in newborn infant, 409
resection, 994
